## SCHOOL RADIO GAINS IN OHIO

Expect 400,000 Pupils To Be Hearing Programs at Fall Opening.

BY MURRAY POWERS, Staff Correspondent for The Star. COLUMBUS, O., May 23.—Radio is leaping to the fore in Ohio educational circles. Established not much more than a year ago as a state department of education project it is anticipated that when school opens in the fall 400,000 children will be listening to "ether" lessons that are planned here in Columbus. This will be 100,000 more than tuned in with school sets last year.

Ohio State university officials have just announced that through the medium of the radio the facilities of the institution will be offered to all high

schools next fall for the teaching of French and Spanish. Native of these countries will be the instructors.

Discussed at Meeting. The latest step toward massed radio education came this week, too, when superintendents of schools in 15 northern Ohio cities met with Supt. R. C. Jones of the Cleveland public schools to discuss advisability of sharing Cleveland's radio lessons. It was said that the educators saw in the meeting a step toward having the larger metropolitan cities serve smaller cities and villages in their districts.

It is a far cry from the day of the little red school house, where one teacher took pupils through all of the grades, to today when pupils not only have the benefit of educational specialists, but also are able to hear the many noted and famous persons they have in the past been able to only read about.

Ohio ranks among the foremost states of the union in educational broadcasting. The "Ohio School of the Air," as it is known, was established by an Ohioan, R. H. Harrow,

who traces his own education back to one of those one-room little red school houses in Champaign county. The Ohio radio school was actually launched Jan. 7, 1929, and since then school teachers and students have taken to the idea like the proverbial ducks to water.

Plan of Operation. In the announcement of Ohio State university that it would aid Ohio high schools teach French and English, officials said it was the plan to help the pupil through oral instructions to conquer the difficulties with foreign languages so that when he enters college he will be able to do better language work. The lessons are to be broadcast four mornings a week from WEAQ of Columbus. The lessons will be conducted almost entirely in the foreign tongue and will consist of sentences to be repeated by the high school class, of questions for it to answer and of dictation to be taken in the foreign language as a test of understanding it as it is spoken by a native. Lesson sheets will be distributed by the university to teachers who are interested.

### HEADS P. T. A.

Mrs. Eugene Maize is Hostess to Club at Inn

PROSPECT, May 23.—Mrs. Eugene Maize entertained the P. T. A. club at the Hinger Inn Wednesday night.

The evening was spent playing euchre. Highest score was won by Mrs. Harry A. Lauer. Low score, Mrs. Harry Gast. Mrs. Harold Osborn will entertain the club next month.

Fred W. Fletcher, of Prospect, has been elected as instructor of entomology and zoology at Ohio State university for the coming year.

### Postal Workers Start Annual 15-Day Leaves

Vacations at the local postoffice began this week with two rural mail carriers opening the season. Newell James, carrier on Route No. 8, began his 15-day vacation Wednesday and Ed. W. Smith, carrier on Route No. 5, began his leave yesterday. Newell's place is being filled by Raymond Smith, substitute carrier and Smith's place by Roy Smith, also a substitute.

### WRIGHT TO RECEIVE HONORARY DEGREE

Ceremony for Airplane Pioneer Set at O. S. U. for June 10.

By The Associated Press. COLUMBUS, O., May 23.—To one of Ohio's foremost sons, who became famous when the first heavier-than-air flying machine glided safely to a clumsy landing at Kitty Hawk, N. C., more than a quarter of a century ago, Ohio State university will give an honorary degree.

He is Orville Wright, of Dayton, who with his brother, the late Wilbur Wright, invented the airplane. Mr. Wright will receive the degree of doctor of science from the state institution. The award will be made at the fifty-third annual commencement at the university on June 10.

The award was recommended May 8 by the university faculty and approved May 12 by the board of trustees. Word that he will be present at the exercises to receive the honor personally has been sent here by Mr. Wright. The award is in recognition of his contributions to aviation.

Mr. Wright will be the fourth person to receive an honorary degree from Ohio State university since it received the practice in 1902. At last year's commencement honorary degrees were conferred on Charles E. Kettering, alumnus and leading automotive engineer and inventor; Prof. Arthur H. Compton, noted University of Chicago physicist and President Emeritus W. O. Thompson. All four are native Ohioans.

Between 1878 and 1890 Ohio State granted 14 such degrees, 13 persons being so honored. The practice, however, was discontinued between 1890 and 1929.

The degree to be conferred upon Mr. Wright will be the third honor paid him by his native state. In 1900 both Ohio and the city of Dayton presented him with gold medals in recognition of his achievements in aviation—which then were but in their infancy.

He also has received degrees from Earlham college, Royal Technical college, Munich, Oberlin, Trinity, University of Cincinnati, Yale and the University of Michigan.

### Seattle To Install Two Largest Turbines

SEATTLE, Wash.—Seattle's city light department will soon be constructing to ship the turbines to the Northwest, according to Nelson D. Phelps, electrical expert representing the H. Morison Smith Company, of York, Pa.

Each turbine will have a capacity of 65,250 horsepower and will rest on bases 41 feet long, Phelps said. The lower development project.

## In an actress it's Personality

## in a cigarette it's Taste

IT TAKES SOMETHING MORE than good looks to hold the center of the stage—and something more than mere mildness in a cigarette to win the popularity that Chesterfield enjoys.

IT'S THE TASTE, of course—and there's a lot of difference between mildness alone and mildness with taste . . . between ordinary tobaccos and quality tobaccos . . . between ordinary blending and the Chesterfield blend.

TASTE A CHESTERFIELD!—Mildness is there, of course, but much more . . . delicate richness, fragrant aroma, and—"TASTE above everything".

We state it as our honest belief that the tobaccos used in Chesterfield cigarettes are of finer quality and hence of better taste than in any other cigarette at the price.

"Daily Proverb"—What is one man's meat  
is another man's poison.

Having heard Fritz Kreisler play "Meditation,"  
London now has another slant on the dis-  
tinguished American, who has become  
identified over there, as here, by his under-  
standing pipe.

Since that wet woman congressman from  
New Jersey made her speech, it's an easy  
guess that the members of the house who  
vote dry are ready to believe all that Mr.  
Kipling said about the female of the species.

Both Chairman Huston and Chairman Har-  
kob of the two old party national committees  
have been termed lobbyists. But, when it  
comes right down to the point of the thing,  
aren't the most of us lobbyists in one way or  
another at times?

France has raked her duty on wheat from  
fifty to eighty francs, that is from \$1.30 to  
\$3.12, to the hundred kilograms, the equiv-  
alent of 2.33 bushels. The duty on flour  
and other wheat products were raked pro-  
portionally. Some country may acquire fame  
by not showing resentment at the rates in  
our tariff bill.

Tornadoes thus far this month have caused  
the deaths of over 100 persons in the United  
States against an average annual total of  
210. If that toll is maintained, the aggre-  
gate of the heated season will be staggering.

One of the occupants of an automobile  
which turned over near Danville, Illinois, was  
hurled over a one-story house and landed  
300 feet from the scene of the accident. It  
may be taken for granted that the car was  
moving at the same "ordinary" speed at which  
cars are usually traveling when such accidents  
occur.

A gain of seventy-two on the recount gives  
us a population of 31,077; not a lot, it is  
true, but every little helps. Still, the vital  
thing is not what our population is now, but  
what it may be ten years hence. That's what  
should hold our attention.

State Auditor Joseph T. Tracy reports that  
the total expenditures of the state in 1929  
amounted to \$65,941,933.25, including \$21-  
717,179.40 for highway purposes and several  
other items, the amount paid out from the  
general revenue fund being \$32,681,933.67,  
as compared with \$27,841,396.16 in 1928, an  
increase of \$4,740,537.52. Let us hope that,  
should a miracle occur and some year a saving  
be made, the fact will be broken to us by  
degrees.

## Hanford MacNider for Ottawa.

President Hoover has selected Hanford  
MacNider, of Iowa, former national com-  
mander of the American legion, to succeed  
William Phillips, who resigned from the diplo-  
matic service, as minister to Canada, and  
sent his name to the government in Ottawa  
for his approval.

The Canadian post is looked upon in Wash-  
ington as one involving many commercial  
relationships, and hence the president sought  
for the place a man of no business qualifi-  
cations and varied experiences in public affairs,  
and in MacNider, he evidently feels, he has  
found one in all ways qualified to look after  
the interests of our government ably.

MacNider, who is a banker, is active and  
vigorous physically and mentally. He was a  
National guard officer at the time of our  
entrance into the World war, in which he  
won honors as an officer in the Second divi-  
sion. He was given the Distinguished Service  
cross and a number of foreign decorations.  
He was named by President Coolidge in 1925  
as assistant secretary of war and served in  
that capacity until 1928. Returning to civil  
life, he reentered the banking business and  
now, at forty, is chosen for diplomatic service.

Such is the fitness of the presidential  
selection for the Canadian post that there should  
be no question of the approval of his nomina-  
tion when it reaches the senate, but opposition  
may develop in that body.

The Washington dispatch telling of the  
selection states that MacNider and Senator  
Smith W. Brookhart have recently been in  
opposite political camps in Iowa. A few days  
ago the senator issued a statement in which  
he bitterly assailed the former Legion com-  
mander, who, the senator declared, was seek-  
ing to control the Iowa senatorial nomina-  
tion. This feeling on the part of Senator  
Brookhart may cause him to oppose the nomina-  
tion. On the other hand, the senator may  
see in the nomination a means of getting  
MacNider out of personal touch with Iowa  
politics. But no matter what the outcome,  
the selection by Mr. Hoover will be accepted  
as a good one and should prove generally popu-  
lar.

## The Pennsylvania Primary.

Understanding of the varied results of the  
Pennsylvania primary and the causes leading  
up to them may be easy to those familiar with  
the ins and outs of Keystone state politics, but  
to those not thus familiar the primary returns  
offer many grounds for speculation. Nor does  
editorial comment throw much light on the  
various developments. It is far more varied  
than the results themselves. Some newspa-  
pers see a great personal victory for Davis;  
others see him nominated through the work-  
ings of the Vire machine and the influence of  
his position with the administration. A num-  
ber of papers call it a victory for President  
Hoover; others refer to it as a victory for  
the drys. Some look upon the result of the  
senatorial race as a blow at high tariff rates.  
A number of papers credit Vire with victory  
and about as many see a defeat for him in  
the outcome. While admitting that Pinchot  
scored a victory, a number of papers hold that  
Vire retains his place as boss of Philadelphia  
and the chief political influence in the state.  
On one point alone is there general agreement,  
and that is on the overwhelming defeat of  
Grundy in his campaign to succeed himself in  
the United States senate and grasp the political  
leadership in the state.

John J. Davis, for senatorial honors, and  
Francis Shunk Brown, for gubernatorial, had  
the backing of William S. Vire. The former  
simply smothered Senator Joseph R. Grundy,  
one-time chief lobbyist for industrialism and  
champion of high tariff. On the other hand,  
Clifford Pinchot, running independently, nosed  
out Brown, the running-mate of the secretary  
of labor. Vire nominated his candidate for  
senator, but lost on his candidate for gov-  
ernor. He defeated Grundy, the man who was  
named to the seat in the senate to which he,  
Vire, was elected, but which he was defeated  
because of campaign expenditures but little  
larger than those of two others in the same  
campaign, one of whom was Pinchot. Vire  
may have satisfied a feeling of resentment  
against Grundy, but he and his machine are  
said to have been more interested in state  
control in Harrisburg, which in the event of  
the probable election of Pinchot will be held  
by the man they opposed, than in the defeat  
of Grundy. The two wet candidates—Francis  
Hobbs, for senator, and Thomas W. Phillips,  
for governor, whose probable combined ac-  
complishment was the defeat of Brown, were  
badly beaten, but so was Grundy, a pro-  
nounced dry; and while Pinchot, a dry, won  
out, so did Davis, who, while following in  
enforcement so long as prohibition is the law,  
is not committed to the dry cause.

Let us score a victory for Davis, murred  
in the eyes of some by an obligation under  
which the support of Vire, accepted by him,  
placed him; a victory for Pinchot, who is  
under obligation to the drys and the radical  
political element of the state, and a victory  
for President Hoover, in support of whose  
administration Vire sought and won votes for  
Davis. More than that, in his present sec-  
retary of labor, whose election in Pennsylvania  
is as good as assured, he will have a friend  
and supporter in the senate, whereas in  
Grundy he had one inclined to criticize and  
attack administration policies and one whose  
mind ran far apart from his, notably in the  
matter of tariff rates.

A Cleveland court has decided that a cat  
has a right to bite a man who steps on it.  
Who knows? One of these days many may  
get some legal protection from the fellows  
who go about slapping people on the back.

## The Huber Company's Parties.

At times we are inclined to feel that there  
is not adequate appreciation of how much  
the annual parties given by the Huber people  
mean to our city.

Year by year the attendance has been  
growing, and yesterday the crowds from all  
over this state and those surrounding it  
assembled for the company's yearly thresh-  
er's program numbered approximately  
1,000.

Such a gathering not only means a splendid  
advertisement for the product of a local in-  
dustry, but also an advertisement for all the  
industries and commercial enterprises of the  
city and the city itself. No company of any-  
thing like the size of yesterday's party can  
be assembled here from points near and far  
without being impressed at this season of the  
year with the physical city, the beauty of its  
tree-lined avenues, carefully-cared-for lawns,  
its bloom and its shrubbery. And if the guests  
are treated as they should be, and as they  
always are by the Huber people, they can not  
well do other than think pleasingly of Marion  
and the desirable place of residence they  
found it to be. And who knows? In time  
some of them, many of them, may be led by  
that feeling to become residents here.

Nothing is over lost by a city when such  
gatherings come to it, are treated splendidly  
and go away happy and satisfied, and very  
often the good resulting from it proves to be  
great.

Anyway, there's this to be said for the con-  
tention of the scientist, who holds that the  
discovery of a fossil fish twenty-five feet long  
near Buffalo shows that New York state was  
all water 200,000,000 years ago; it's still  
admittedly very wet, but not necessarily with  
water.

The Ohio State Journal may be forgiven  
for feeling depressed over the stunts being  
put on by the attendants at Ohio State uni-  
versity. Throwing rotten eggs and holding  
wrestling matches on the front lawns of  
citizens down there does show something of  
a lack of originality.

On the ground that he used starting blocks  
in his sensational dash in Chicago last June,  
the International Amateur Athletic federation  
has refused to approve the 2 1/2-second mark  
made by George Simpson, the Ohio State star,  
and awarded the world record to Eddie Toban,  
the negro sprinter of the University of Michi-  
gan, whose mark of 9-10 made at Evanston,  
Illinois, last May. It holds made him the first  
runner to cut the mark of 9-3-5. The odd  
phase of the case is that the federation had  
not disapproved of the use of blocks till the  
day before it disqualified Simpson.

## THE LADDER TO FAME.

## Editorial Opinion.

## MR. ROBERTS' CONFIRMATION.

With almost precedent-establishing speed in the  
case of a nomination of such importance the senate  
confirmed without a dissenting vote the ap-  
pointment of Owen J. Roberts, of Pennsylvania,  
to the supreme court bench. Thus ends the period  
of distress for President Hoover which set in with  
the ill-considered nomination of Judge Parker and  
eventuated in his rejection. Once again our fel-  
low citizens of highest worth is equipped with its  
full quota of "line members."

Apart from the signal tribute to his excellence,  
Justice Roberts' prompt confirmation carries a les-  
son which will hardly be overlooked at the White  
House or by the country. That lesson is that had  
the Parker nomination been that of a man of un-  
questionable excellence there is small question that  
it would have prevailed. The North Carolinian,  
despite qualities which even some of his foes con-  
ceded him, could not overcome the handicap of  
falling to measure up to that outstanding stan-  
dard in the law which Americans traditionally associate  
with the supreme court. Chief Justice Hughes  
personified perhaps in far greater degree the right  
of properly to resist so-called human rights. But  
Mr. Hughes towered to such heights in the legal  
profession and had so unassailable a record for  
fair-mindedness and acumen that opposition ac-  
cusations fell helplessly short of establishing his  
unfitness to head the court.

Justice Roberts goes worthily to the supreme  
bench. He will add to the preeminence of the  
"North" in its new make-up happily had no  
influence on southern sentiment in the senate. It  
is a reassuring token that Dixie knows no sec-  
tionalism in a tribunal truly national in its scope  
and purpose regardless of geographical factors in  
its personnel.—Washington Star.

## SPOKEN IN THE TRADITION.

The Earl of Derby is sailing home this week,  
leaving a most agreeable impression behind him  
wherever he went. It was understood in this  
country that the earl was a genial, sporting peer  
with an honorable public and military record. This  
impression was verified by Lord Derby's demeanor  
in New York, in Philadelphia, in Washington and  
in Kentucky. The neglect of birth he treated as  
an accident. The man within the title being a  
perfectly normal Briton acted as one.

All Americans interested in racing knew in ad-  
vance that the earl was a true-blue Corinthian in  
such matters. If there had been any doubts they  
would have been resolved by his reference on the  
cushion to Gallant Fox, winner of the Kentucky  
Derby, just before the cup was presented. The  
earl said he wanted to pay tribute to a "good  
horse." This is the tradition.

Outsiders and ignoramuses quickly style any  
winner a "great" horse, and when he was won  
both Preakness and Derby they feel there can be  
no question of the accolade. Not so with the tur-  
man. He knows that on the track only two or  
three in a century have the right to be termed  
"great," and these generally after they have re-  
tired from racing. Of Man of War Derby used the  
adjective "great," again in the tradition. The  
conservative purr of the earl comes naturally  
perhaps to a turfman who is a Conservative in  
politics.—New York Times.

## Dinner Stories.

While the young sultor was waiting to  
take out his young lady, the latter's little  
sister entered the room.

"Did you know my sister's got three other  
boy friends?" said the child.

The sultor picked up his ears at this  
piece of news.

"Really?" he said in surprise. "I haven't  
seen any of them."

"Neither have I," returned the child, "but  
she gave me a quarter to tell you."

"Mr. Big Boy is an ardent horseman."

"Yes," said the salesman. "I found that  
out to my sorrow."

"I used the golf approach."

"Kind Lady—"Why don't you go to work?"

Trump—"I would if I had the tools."

Kind Lady—"What sort of tools do you  
want?"

Trump—"A knife and fork."

"John," whispered Mrs. Singerton,  
straightening up in bed, "what's that noise in  
the library?"

"Must be history repeating itself,"  
muttered John drowsily.

The novice at trout fishing had hooked a  
very small trout and wound it in till it was  
rammed against the end of the rod.

Pupil—"What do I do now?"

Instructor—"Climb up the rod and stab  
it."

Mrs. Smith—"Your first husband was such  
a fine man, Mrs. Jones. It's a shame that he  
died."

Mrs. Jones—"That's what Mr. Jones keeps  
saying."

## Water—Inside and Out.

## BY ROYAL S. COPELAND, M. D.

Too few people realize the importance of drink-  
ing plenty of water. This is very much a matter  
of habit, and it is an exceedingly good habit to  
acquire. It is so simple that we forget it and  
overlook it.

Probably the most common trouble of mankind  
today is constipation. The intestine need flush-  
ing out with water taken as a daily beverage and  
the can not work properly without it.

Water is the most important substance of the  
body. The weight of the body is made up of  
seventy-seven per cent. That is, if you weigh 100  
pounds, seventy pounds of that weight is water.

Water is the basis of every fluid in the body,  
as well as being a part of all the tissues. Water  
in the form of perspiration is given off from the  
body at all times. In the blood and gastric juices  
it acts still further to supply body needs.

You can see for yourself that we need a great  
intake of water every day. If you don't consume  
enough, something unpleasant is bound to happen.

An adult needs to drink as much as six glass-  
fuls of water every day, and a child a little less.  
Some of it, of course, is taken in other drinks of  
various kinds and in foods, but an adequate sup-  
ply can not be gotten in this manner. You just  
have to drink a certain amount of clear water  
every single day if you want to keep in good  
health.

Summertime is a time when the most of us are  
naturally—that is, we are on the "go" somewhere or  
other much of the time. People are vacationing  
everywhere. There is lots of mischief done by  
drinking impure water during these summer days.  
On a hot day thirst overcomes us in the most un-  
expected places. The boy or girl on a hike through  
various kinds and in foods, but an adequate sup-  
ply can not be gotten in this manner. You just  
have to drink a certain amount of clear water  
every single day if you want to keep in good  
health.

During autumn at the end of the vacation season  
single cases or epidemics of typhoid fever appear  
in various places. Unusually these originated in  
some rural places where careless persons drank of  
contaminated water.

You can not trust to the appearance of water in  
strange places, even though it appears to be crystal  
clear. It may contain deadly germs from un-  
known sources. Don't drink at the first spring  
you come across. Be sure the water is pure and  
free from contamination. Children should be  
taught this and have drilled into them the dangers  
of drinking from unknown waters.

If you want your child to have sparkling eyes,  
rosy cheeks and radiant health, teach him to form  
the habit of drinking water freely every day. He  
can not form this habit too young. Fresh air,  
water, good food, exercise are needful adjuncts to  
good health.

The extent to which you drink water and eat  
fruits and vegetables will have its direct bearing  
on that important daily elimination of bodily  
wastes, without which health can not be main-  
tained. It is so important that you drink plenty  
of water, and it is so simple, that there is really  
no excuse for not making it a fixed habit and living  
up to it to the full extent of your power.

Make it a point to have good health. You owe  
it to yourself and to those around you. You can  
not have good health without obeying the laws of  
health. Plenty of water inside and out is cleansing  
and life-giving.—Copyright, 1930, Newspaper Fea-  
ture Service, Inc.

## Twenty Years Ago.

It was Monday, May 23.  
The daughter was born to Mr. and Mrs. F.  
J. Glaff, residing northeast of Marion.

Beavers were bringing from \$5.50 to \$5.60  
in Chicago; hogs from \$9.10 to \$9.50; sheep  
from \$14 to \$16.50; lambs from \$5.75 to \$5.60.  
May wheat, \$1.09 1/2; July, 1.00 1/2; September  
98 1/2; corn ranged from 55 1/2 to 60 1/2 and  
oats from 37 1/2 to 40 1/2.

Eighteen members of the steamer, Good-  
year, were drowned when that vessel was  
rammed in Lake Huron by the steamer,  
Wood. The accident occurred in a fog.

Mrs. Carl Reiff was elected excellent chief  
of the Pythian Sisters.

About seventy couples attended a dance  
given by Marion Lodge, No. 102, Knights of  
Pythias.

The school board fixed the school levy at  
11 1/2 mills, an increase of two-tenths of a  
mill.

A concert given by the Deutscherbund at  
its hall on South State street was a great suc-  
cess.

Marion, with Zmiech pitching, scored three  
runs off La Follette and shut out Newark.

Marionites viewed a total eclipse of the  
moon.

The city council was planning an ordinance  
to outlaw the sale of fireworks.

## Michael Faraday.

## BY AIR HIBALD HENDERSON.

A self-taught genius!  
How stimulating should be this thought  
to all of us!

If we have the quality of genius, whatever  
it may be—perseverance, patience, imagina-  
tive insight, the power of generalization—  
little else is really, strictly essential.

Michael Faraday worked with countless  
problems which might well have taxed the  
most skill and ingenuity of the expert  
mathematician. But Faraday was never able  
to master the intricacies of the higher mathe-  
matics. He analyzed, weighed, experimented  
—dealt with the things and the effects, them-  
selves rather than with theories about them!

Faraday was one of the most modest and  
unassuming of men. With a disarming sim-  
plicity and a rare mental lucidity, he was able  
to make a scientific lecture as fascinating as  
a romance. Like only a very few great scien-  
tists that might be named, he aimed at great  
scientific results, leaving renown and the  
world's applause to take care of itself. He  
actually refused the presidency of both the  
Royal Institution and the Royal Society.

Again and again he had the opportunity to  
devote his scientific talents as an experimenter  
to commercial pursuits with the assurance of  
ample fortune, but he never wavered in  
fidelity to the high ideals of science he cher-  
ished.

Two autobiographical statements which  
have come down to us depict the simple great-  
ness and lofty aims of this remarkable man.  
On one occasion he said:

"I am no discoverer, but simply one of the  
east crowd of workers scattered over the  
earth, who in the providence of God are in-  
vested with some portion of the divine in-  
fluences, and appointed to show forth His  
mercy and loving kindness in conferring fresh  
benefits on His people; the varied merits of  
such agents being evinced in the comparative  
zeal of self-sacrifice with which they carried  
out the mission entrusted to them."

On one occasion, recording his reflections  
on the great scientist, or philosopher, as he  
calls it, Faraday says:

"It puzzles me greatly to know what makes  
the successful philosopher. Is it industry  
and perseverance with a modest proportion  
of good sense and intelligence?"

"Is not a modest assurance or earnestness  
a requisite?"

"Do not many fail because they look rather  
to the reward to be acquired than to the  
pursuit of knowledge?"

"I am sure I have seen many who have  
been good and successful pursuers of science  
and would have gained themselves a high  
name but that it was the name and the re-  
ward they were always looking forward to—  
the reward of the world's praise. In such  
there is always a shade of envy or regret over  
their minds and I can not imagine a man  
making discoveries in science under these  
feelings."

Michael Faraday, the son of a blacksmith,  
was born near London on September 22,  
1791. Errand boy of a bookseller, to whom  
he was later apprenticed, he employed his  
leisure time in studying works of science and  
in carrying out, with simple and inexpensive  
materials, the experiments of which he read.

In the winter of 1812 he attended four lec-  
tures of the famous natural philosopher, Sir  
Humphrey Davy, and afterward sent the lec-  
turer the set of admirable notes he had taken  
on the lectures, with a request for a posi-  
tion. It is said that Davy was deeply im-  
pressed by the incident and by the exceptional  
grasp of the subject displayed by the young  
unknown.

It all ran in the romantic fashion of a fairy  
tale. One night Faraday was about to sleep  
in bed when a heavy knock came to the  
door. It was a summons, by a hired ser-  
vant, to wait upon the great Davy the follow-  
ing morning. In due time he was engaged as  
laboratory assistant with the extremely  
moderate remuneration of twenty-five shil-  
lings, or a little over six dollars, a week.  
Soon he was making experiments on his own  
account.

He ultimately succeeded Davy at the Royal  
Institution with which he remained connected  
for fifty-four years. Faraday's notebooks re-  
cord the great number of his scientific ex-  
periments: 16,011.—Copyright, 1930, Inter-  
national Feature Service, Inc.

## RASH ON FACE Yields to Resinol Skin Now Lovelier Than Ever

"Having always had a very fine complexion, I was quite distressed when an itching rash appeared on my face and body. I went to a skin specialist, but the treatment did not help me, so I turned to Resinol Soap and Ointment and they completely healed the trouble. Now I am a regular user of Resinol Soap and my complexion is more beautiful than ever before." (Signed)—Pauline Miller.

1. J. Mead second ward: "If the water works can be bought at a good figure without taxing the people of Marion, I think it's all right. As explained, it will not cost the city a cent. I think we should investigate it. No one but an engineer can set a fair valuation figure on the property, and no one can set a fair price until an engineer has done so. People have looked about high water rates and wondered why the city didn't buy the company. Now when it's proposed some of them are howling against it."

J. A. Miller, third ward: "If it will pay for itself without obligating the taxpayer, I think the water company should be bought by the city, provided the price is not too high. If it will be self-sustaining, bring a reduction in rates and leave a surplus besides at the end of 25 years, we'll probably consider it seriously. However, all that has been done so far is to pass a resolution to 'break the ice' to give the city a chance to consider it."

## Alleged Bandit Queen Escapes Reformatory

MARYVILLE, May 22.—(The Associated Press.)—An alleged bandit queen who was serving an 18-month sentence at the Women's State reformatory here, escaped from the institution early this morning.

Authorities here claim that the escaped woman is a pal of a noted Chicago gangster.

## ASK AMENDMENT TO OHIO CONSTITUTION

Civic Organizations Sponsor Move to Change Form of County Government.

By The Associated Press  
COLUMBUS, O., May 22.—(The Associated Press.)—The Ohio Chamber of Commerce and the other statewide civic organizations, a movement for a constitutional amendment to change the form of county government in Ohio was under way today.

Specific recommendations for the change will be drawn up by a committee appointed at a conference called at the request of the Akron Chamber of Commerce here yesterday. The committee, headed by Walter J. Kirk, Port Clinton, master of the state Grange, will study the problem and report back to the conference.

Four plans will be considered, one of which is almost wholly covered by Cleveland and its suburbs, and one that would suit the requirements of other counties. This was decided after the conference had considered the amendment proposed by Representative Harold Burton (Cleveland) which was turned down by the last legislature.

Should the committee finish its work in time the proposed amendment may be introduced by petition and placed on the November ballot.

Charles P. Taft, Cincinnati, suggested this procedure as a means of expediting the process which might result in the present law being substituted first to the legislature for adoption.

Delegates to the conference included Frank B. McMillan (Mt. Pleasant) president of the Ohio Chamber of Commerce; A. Dyer of the state Grange; C. W. Munn (Columbus); and D. W. Munn of the Akron chamber of commerce.

Rev. Carl Mestor, of Delaware will teach Sunday school class Sunday, May 27. Epworth M. Church. Every body come.—Ad.

ART, MUSICDinner Ends Season for  
Art Club; Hear Speaker

A DELICIOUS dinner and program meeting brought the season to a close for members of the Art club last night at Hotel Harding. Spring flowers added a colorful note to the tables arranged for a 6 o'clock dinner, of which covers were placed for Hoyt Leon Sherman, head of the fine arts department, Ohio State university, and 50 members of the club and guests.

Members of the University Women's club and the Marion Mimes were invited to hear the illustrated talk given by the guest speaker, Mr. Sherman, who was introduced by Mrs. James H. Smith.

Mr. Sherman, who is an interesting speaker, is head of fine arts and instructor of painting drawing and stage design at Ohio State university, and at present has an exhibit at the Columbus Art league. He is a member of the society of American Artists. A business session will be held Wednesday night for members of the club at the home of Mrs. J. E. Crawford, 411 Vernon av.

MEMBERS of the Art club closed their season with a house picnic and program meeting last night at the home of Mrs. Allyn Crane, Forest st. During a short business session plans were made for a work and outing at the cottage of Miss Christine Black, at Rye Beach, next month. Miss Mary Helphrey, retiring president, presented the guest to the new president, Miss Margaret Foster.

"Ohio," was the program topic and Miss Lela Brookshire presented a paper, "My Stage Coach Journey Across Ohio in 1831." Beauty spots in the state were named by Mrs. Knox Dunlop in her paper, "A Trip Across Ohio Today," and Miss Genevieve Coleman pointed out how Marion figured in the industrial life of the state in her paper, "Ohio's Contribution to Industry."

360 Mothers, Daughters  
Attend Church Banquet

OVER 360 mothers and daughters were present for the Mother and daughter banquet last night at Epworth M. E. church, at which Mrs. Elma E. Valentine, of Columbus, was the chief speaker. The dinner was attractively served, and the program was appropriate to the occasion.

In her talk, Mrs. Valentine said that work, play, love and worship are the four great things of life and that the worship of God is the primary duty and the crowning glory of every Christian life. Mrs. Valentine is a prominent Parent-Teacher leader in Columbus and is a member of the Ohio state legislature. In her talk she said: "The greatest thing in the universe is life from the lowest forms up to the highest. The development of life is most interesting. The task is to find all that calls out the best in our nature and then live with it. The mother is entrusted with life and hands it on to those who will after her."

The speakers table was centered with a silver basket of pink carnations. All the tables were decorated with bowls of flowers and lighted with pink tapers. The rooms in which the banquet was served were decorated with baskets of pink flowers.

Cornucopuses of flowers in pink and lavender were given in place favors. During the banquet hour, pop songs were sung under the direction of Mrs. Knox Dunlop, with Miss Mary Heininger at the piano. The program opened with singing, "For the Beauty of the Earth," Mrs. C. E. Tull, contralto, gave a short talk followed by a toast, "Our First Sweethearts," given by Miss Evelyn Long. A solo "There, Little Girl" was sung by Miss Lora Snidergrass, accompanied at the piano by Miss Eliza Beth Pike. Mrs. Merle Hamilton presented a poem on mothers. A tri-composed of Mrs. Dunlop, Miss Heininger and Miss Edith Foster sang, "Mother Love." Mrs. A. W. Newby gave a toast, "Our Cheapest Blessings," after which the trio sang "Faith of Our Mothers."

Following the address by Mrs. Voll and a poem by Mrs. Taylor, a candle light service was presented by Miss Esther Williams. Miss Har-

die from that of their mother, repeated a pledge to their mothers. The banquet was served by the pastor of the church under Dr. G. L. Tupper. Arrangements for the banquet were in charge of Mrs. Tupper, Miss Mary Resor, Mrs. J. I. Hart and Mrs. Homer Wallace.

A man may not know whether a poem is good or not, but he ought to know that "poem" and "woman" do not rhyme.

# ZUSPAN, PEADON PITCH STAR GAMES

## U. B. HURLER IN TOUGH LOSS; FOREST LAWN WINS EASY GAME

Presbyterians Nosed Out 3 to 2 in Close Game with Wesley M. E. Nine; Christians Lose to Lee St.

DUTCH ZUSPAN and his United Brethren baseball team dropped a 4 to 3 decision to St. Paul in their game at Garfield park yesterday but it wasn't poor hurling on the part of the Dutch pitcher that accounted for the loss. It was the fact that he pitched one of the best, if not the best, game that has been seen in Marion parks this season. In other words, the second series of Sunday school league No. 2, Lee St. kept the record clean with a victory over the Christians; Presbyterians almost

could do for the rest of the game although they came close to adding to it on another occasion. Except in the fatal third and in the fourth when the bases were loaded Walker held the Methodist to a few scattered blows.

The Presbyterians had their big inning in the sixth but it fell just a single run short of being big enough to tie the score. Two errors and a brace of hits brought in the two tallies for the losers.

Errors were plentiful throughout the game for both teams. Wesley outdid the losers 7 to 5.

**Score by innings:**  
Wesley M. E. . . . . 003 000 1-3  
Presbyterians . . . . . 000 000 0-2  
Batteries: Wesley—Cook, Layman and Williams. Presbyterians—Walker, Church and Mickey.

### Christians Take It on the Chin

Errors don't count. If they did, Christians would have beaten Lee St. runs do count and for this very simple reason Lee St. is standing with two wins and no defeats, while the Christians have two losses credited to their two stars, Lee St. was yesterday 6 to 1.

For the Christians, the second inning was just one error after another. It was an ill wind that blows nobody good though and Lee St. collected these errors and immediately converted them into runs to be scored into the scoreboard as a souvenir for their future ball players to look and say: "That's how Lee St. used to win their ball games. Five runs crossed the home plate in the wild second before the losers finally held onto the ball long enough to tie three men out. And all this after the Christians had threatened, in the first, to make a ball game out of it. They scored the first run of the game in the initial frame when a double by Fetter and a single by Overfield sent a runner scampering home. They may have gotten stage fright after scoring once but Lee St. got the runs, according to the official scorer. Christians simply handed the game to Lee St. in the second although after this one had injured they came to life and were very much in the ball game. The Christians got into some bad holes in the latter innings but managed to get out without additional runs being scored against them.

**Score by innings:**  
Lee St. . . . . 000 000 1-3  
Christians . . . . . 000 000 0-1  
Batteries: Lee St.—Fadley and Conkle. Christians—Amick and Midelet.

### Peardon Reforms First Reformed

Bob Peardon had things pretty much his own way while occupying the mound for Forest Lawn in their game with the First Reformed team. The Reformed nine may get a lot out of their Sunday school lessons but apparently Bob Peardon thought them still in need of some additional reforming. Anyway he did things in a big way in reforming the Reformed batters from the idea that they could step into the batter's box and hit his tosses. About the only thing Reformed batters were able to connect with consistently was nothing. And that didn't account for any oversupply of runs. It didn't account for enough for while they worked seven

## SPORTSMAN'S HALL OF FAME

TODAY'S nomination to the Sportsman's Hall of Fame includes two Sunday School No. 2 league baseball pitchers. One of them pitched and won his game yesterday and the other lost a close decision by virtue of a late rally by the opponents. This however does not detract from the fact that he hurled a great game and allowed but four hits.

Howard (Dutch) Zuspan of the United Brethren, and Bob Peardon of the Forest Lawn nine, turned in the exhibitions which gain for them this Hall of Fame position.

Zuspan lost his game but pitched good ball. He did not allow a single man to reach first base during the first four innings. A rather weak sixth, both on his part and on the part of his teammates tossed the game away.

Bob Peardon's feat consisted not only of winning his game with the First Reformed team but also of whiffing 13 opposing batters. That's enough to gain recognition for any hurler.

## EX-LEGION SLUGGERS COLLECT 11 HITS TO BEAT MASONS 10 TO 5

Winners Continue Winning Efforts in Wednesday Game at Lincoln Park.

FROM the looks of the scores which have been turned in by the Marion Ex-Legion baseball team in their games with Legion Junior League entries, it is a good thing for the opponents that the Ex-Legion nine victories do not count in the standings. Yesterday the game played by the former Legion players with the Marion Masons was just a repetition of the others. The Masons worked hard but the heat they could get for all their efforts was five runs against twice that number for the Ex-Legionnaires. The game does not count in the official standings of the Legion league as the winning nine is made up of players who are too old to compete in regular games.

The Ex-Legion team crossed the home base three times in the first inning on a hit, a walk, an error and a hit batsman. They added three more in the second on two hits and two errors. The Masons did not score until the third when they counted their first two runs.

The Legion team coasted through the latter innings with a safe lead and errors by Mason players helped a lot to give the game to the winners. The Masons hit six times for five runs and the Ex-Legion batters connected safely 11 times for 10 runs. Batteries were: Ex-Legion—Adams and McAninch. Masons—Hagen, Reese and Anderson.

**Score by innings and summary:**  
Ex-Legion . . . . . 330 201 1-10 11 6  
Masons . . . . . 000 001 2-5 6 6  
Two-base hits—Lindsey, Reese, Armbruster. Three-base hits, Kluge Double plays, Blintz to Buckley; Mason to Porter to Spring. Passed balls—None. Bases on balls—OF Adams 2, Hagen 1. Struck out—By Adams 2, Reese 3. Batters hit—By Hagen 1. Wild pitches—Adams 1, Hagen 1. Hits—OF Hagen 6 in 4 innings; OF Reese 5 in 3 innings; Umpires—Kunkle and L. Adams. Time of game—1 hr., 18 min.

Innings to amass the grand total of five scores, Forest Lawn rang the circuit gong just eight times. Peardon didn't do everything he might have to have insured a perfect ball game. He walked more than his share of men and these walks together with some timely hits from the few unreformed Reformed batters were responsible for several of the losers' runs. Peardon issued seven free trips to first base.

**The score by innings:**  
Forest Lawn . . . . . 024 010 1-8  
Reformed . . . . . 122 000 0-5  
Batteries: Forest Lawn—B. Peardon, Kellogg and G. Peardon. Reformed—Miley and E. Howison.

### TO SPONSOR SHOOT

The Carey Rod and Gun club will sponsor a trap shoot at the Wyandotte Indian Cavers four miles west of Carey on route 15, Sunday, May 26, beginning at noon. In case of rain the shoot will be held on June 1.

### ASHLAND GOLF TEAM WINS

By The Associated Press  
CLEVELAND, May 22—Turning in a team score of 523 the Ashland college eight-man golf team yesterday took first place in the tournament of the Cleveland District Golf association. Wooster was second, Elgin third, with Lorain, Mansfield and Norwalk trailing in order.

# Oakland Heights Gun Club To Stage Shoot

## ON THE INSIDE

With Bob Kirkpatrick.

ANOTHER argument in favor of taped handles on all bats used in city baseball league games was brought to light yesterday in the game between United Brethren and St. Paul at Garfield park. During the latter part of the game, a St. Paul batter took a hefty swing at one of Dutch Zuspan's fast ones and connected. When he connected the bat broke and was thrown to the sidelines among the spectators, where it narrowly missed hitting a small boy on the head. What it might have done had it hit him is mere conjecture on the part of anyone. However, it is safe to say that it wouldn't have improved for the time being at least, the feelings of the youngster in question. This we think, is a good time and place to repeat the request of the baseball commission for team managers to tape the handles of all bats before bringing them to the games. **HELP MAKE THE SIDE-LINE SPECTATORS SAFE!**

According to an announcement of Oakland Heights Gun club officials that club will back a big trapshoot Saturday on their newly built traps located on the Green Camp road. This is the second shoot in the immediate vicinity of Marion this year. The other, which was sponsored by the Marion Gun club, drew a large number of shooters and spectators. Everyone seemed to thoroughly enjoy the afternoon's entertainment. The one of the Oakland Heights club Saturday, promises to outdo even the successful shoot held earlier in the season, if arrangements already made are carried out. We suggest that Marion sportsmen take Saturday afternoon off and walk, ride or fly to the Oakland Heights Gun club shoot. It starts at noon.

OUR predictions for the No. 2 Sunday School league did not turn out 100 percent but they didn't miss it nearly as far as they might have. Lee St. won their game, Forest Lawn had little difficulty in disposing of First Reformed. Wesley beat the Presbyterians although it was closer than we expected it to be. Our one mistake came in the U. B. vs. St. Paul contest. St. Paul found the U. B. batters weak spot for just one inning but it was enough for them to add three runs to their one earlier score and win the game 4 to 3. We won't pick any probable winners in the Industrial league games for today for we have not seen all of the teams in action and consequently do not know how strong they are.

## MARION GROUP WILL DEDICATE NEW TRAPS IN SATURDAY EVENT

More Than 100 Shooters Expected To Be on Hand If Weather Is Favorable

AN opportunity for trapshooters of Marion and vicinity to cash in on some worthwhile merchandise prizes and also have a good afternoon's sport in the traps will be afforded Saturday afternoon when the Oakland Heights Gun club opens their newly acquired grounds and equipment for the initial shoot of the 1938 season. The shoot will commence at 12 o'clock noon and is expected to last throughout the entire afternoon. The grounds of the club are located one mile outside the city on the Green Camp pike. Officials of the club announce that a new clubhouse has been added and also two new sets of traps. For the opening shoot arranged for Saturday, many prizes will be given, the winners of the many events which are listed. Besides the regular shooting awards the club will give away five prizes which may go to any person attending the shoot, outside of actual members of the gun club.

The main event of the shoot is to be a 100 bird shoot beginning at 1 o'clock. Already there are several shooters who have signed up for participation in this as well as other events. More than 40 well known sportsmen from Dayton, Columbus and other cities will be on hand for the Saturday shoot. Two manufacturers of ammunition will also have exhibition shooters on the ground to entertain the visitors. The club expects more than 100 shooters entered in the various events, if the weather is favorable.

L. P. Hartley of 730 Sheridan, is president of the gun club, and G. H. Gearheiser is secretary and treasurer.

## SENATORS, A'S WIN TO HOLD POSITIONS

Babe Ruth Bangs Out Three Homers in Single Game, but Yanks Are Beaten.

BY HUGH S. FULLERTON, JR.  
Associated Press Sports Writer  
ALTHOUGH their race has been rather overshadowed by the heated struggle in the National league, the clubs of the American league have been putting on some rather interesting contests of their own for the higher positions in the standings.

Little more could be asked of the two leaders, the surprising Washington Senators and the Philadelphia Athletics, current champions, than the pace they have been setting. They are separated only by a one game margin. Washington now has won six games in a row, but the Athletics are right behind.

They both engaged in double headers yesterday and came out with two victories apiece to hold their places. Washington, defeated the Boston Red Sox by scores of 10 to 2 and 6 to 1. Jones gave the Red Sox seven hits and Liska six, while the Senators nicked five batters for a total of 37 blows.

**Babe Clouts Trio**  
The Athletics got off to a bad start against the New York Yankees when Babe Ruth hit two homers on his first two trips to the plate and started the Yanks off to a 6-0 lead, but these six runs mean little at the under's champagne cut loose with a rally that brought nine runs in the seventh and a 15 to 7 victory. Babe Walters pitched the A's to a 4 to 1 victory in the second game, holding New York to five hits.

In addition to the two successive homers, the Babe added a third in the same game.

These twin hits with single victories for Chicago and St. Louis, drew the second division clubs close together. Chicago in fifth place, lost 2 1/2 games ahead of the eighth place Detroit Tigers yesterday's 9 to 3 victory over Detroit. Ted Lyons led the Sox by making three hits and driving in three runs in addition to pitching a fine game for his seventh win of the year. The St. Louis Browns nipped into sixth place by

edging out a 3 to 5 victory over Cleveland, gained through a four run rally in the sixth inning.

**Robins Win Again**  
The National league consolidated its lineup as the four first division clubs defeated second division contenders, the leading Brooklyn Robins scored three four run bursts to beat the Boston Braves 12 to 1.

The St. Louis Cardinals got a big

## CRITZ TRADED TO NEW YORK GIANTS

In a deal which sent Hughie Critz, brilliant second sacker to the New York Giants the Cincinnati Reds have obtained Larry Benton as an addition to their mound staff. Critz will fill in at second for New York to complete the infield combination of Terry, Linstrom, Jackson and Critz.

Benton has had only mediocre success with the Giants lately but President Slukey Well of the Reds thinks he will bolster the faltering Red-legged attack.

break when Jacks May of Cincinnati lost a wild pitch with a man on third and broke a 2-2 tie to give the Cards a 3-2 victory. Pittsburgh held its precarious grip on third place by greeting the first appearance of the Cubs at Forbes field with a dozen solid hits and a 10 to 3 victory.

New York Giants started hitting properly against Philadelphia and won by an 11 to 4 count. Fred Fitzsimmons pitched well while Pat Crawford, learning that his job at second base was about gone as the Giants acquired Hughie Critz, led the team by driving in four runs with a home run and a triple.

One thing about angel-faced Critz is that as good when it is ten days old as when it's fresh-out-of-the-nest.

## PESEK-KILONIS WILL HEADLINE MAT SHOW IN MARION TUESDAY

Jim Browning Booked To Face Tom Draak, Holland Champ.

JOHN PESEK, the self styled uncrowned heavyweight champion of the sprawling arena is booked to show his wares in Marion in the Shovel gym Tuesday night in a renewal of the regular weekly wrestling shows. According to promoter Beante Criswell, Pesek is undoubtedly the next heavyweight champ, or would be if the other wrestlers who claim to be contenders would climb into the ring with him. Pesek has offered a huge sum of money, according to his handlers, to any heavyweight who will climb into the ring for a match with him, the winner to be declared the champion. Pesek is looked to tangle with Gentle John Kilonis in the local scrap Tuesday night.

Besides the headline match of Pesek and Kilonis, Criswell has arranged for Jim Browning of Texas to goit and goit with Tom Draak, the Holland heavyweight champ, for 30 minutes in a semi-final go.

Former Hugh Bell of Delaware will stack up against an yet unnamed opponent in the preliminary match.

## PESEK DEFEATS BANTELL

BY The Associated Press  
COLUMBUS, May 22 — John Pesek, the Nebraska "tiger-man," has eliminated his only challenger for heavyweight wrestling supremacy by taking two out of three falls from Ad Bantell of Oklahoma. Cal. None of the other claimants of the world championship, Gus Sonnenberg, Dick Shikat or Jim London, have challenged Pesek's claims.

Tennessee hasn't lost a football game since Nov. 10, 1929. The Vols have been tied three times since their last defeat and each time knocked them out of a Southern conference championship.

## As In the Days of Long Ago

In days gone by the betrothal or engagement ceremony was not complete without the exchange of rings.

In America this custom is proper and in good taste.

A stone ring, the stone symbolizing the month of the occasion or the birthstone or a signet ring as they prefer.

You will be pleased with the strength, dignity and masculine character of our men's rings.

## DISPATCH TROOPS TO AREA OF SALT RAIDS

British To Use Force To Quell Further Attacks by Indian Nationalists.

By The Associated Press  
LONDON, May 22.—British troops—a contingent from Hyderabad regiment—were sent today to the government operated salt depot at Dhara. The purpose is to prevent further raiding by Indian Nationalist volunteers. Simultaneously Nationalist headquarters there announced that the next mass rally would take place Sunday. However, only police, some armed but principally unarmed, were sent to maintain order at the salt depot. Police and troops raided the Na-

## SHERWIN-WILLIAMS PAINT HEADQUARTERS

## Why it costs less to paint your house with SWP

You can paint your house with SWP—the world's best house paint—at a lower cost than with cheaper paint. The reason for this is obvious when you know the facts. SWP is made of the finest materials. The quality is there. We know. We've tested all kinds of paint. Its wonderful body will thoroughly cover almost twice as much surface per gallon as cheaper paint will. Specify SWP because it costs 50% to 60% less per job than cheaper paint—because it gives best protection—because it saves repainting bills by lasting twice as long—and because it produces the most beautiful, lasting color effects. Paint now with SWP and save.

## FRIDAY AND SATURDAY SUGGESTIONS

## MARION MEN, WOMEN TO ATTEND REUNION

Rainbow Division Will Hold Annual Gathering at Columbus.

Between 20 and 30 Marion men and women will go to Columbus Friday and Saturday, June 6 and 7, to participate in the annual convention and reunion of the Ohio chapter of the Rainbow Division veterans and women's auxiliary of that division.

The annual reunion draws veterans of the Rainbow division from several states, and usually attracts between 200 and 300 persons. Judge Benson W. Hough, who headed the division 12 years ago, will be the principal speaker. Instead of the usual reunion, the chapter has planned a memorial service to be held at 3:30 Saturday afternoon in the state house yard. The 105th Infantry band will play for the service. Company reunions are planned for Friday evening. A majority of Marionites attending the meeting will probably go Saturday morning.

## WESLEY M. E. CHURCH GREET NEWCOMERS

Reception Attended by 150 Persons; Affair Follows Revival Service.

Wesley M. E. church gave a reception in the church basement last night for its members enrolled in the recent revival meetings, and by letter. There were about 50 of the new members present, and a total of approximately 150 persons of the church were at the reception. The new members presented along a revolving line, becoming acquainted. Music was furnished by the Oakland Heights orchestra led by Clarence Culp. The Rev. W. Marcell George, pastor of the church, gave a sermonette on "Living on the Tip-toe." An instrumental duet was played by Alice and Louis George. The address of welcome from the official board of the church was given by N. J. Reimer. Refreshments were served and a social time enjoyed.
